

Guthrie HIV Testing and Prevention

Get Informed. Get Tested.

Human immunodeficiency virus (HIV) is a silent killer that can affect anyone. The good news is that when caught early, effective treatment for HIV can suppress the virus to levels low enough that it can't harm you or allow you to pass it on. So, get informed, and get tested for HIV.

Guthrie offers HIV testing and PrEP preventative medication at all primary care locations.

Fact #1: HIV can affect anyone

Fact #2: HIV can't be passed through day-to-day contact

Fact #3: People on effective HIV treatment can't pass it on

Fact #4: There are many ways to prevent HIV, including PrEP

Fact #5: People living with HIV can live long healthy lives
